

Muss & Turner's Overly Simplified yet Purposefully Unique Wine List

Bottle List >

Our Take on Wine - We love wine, but hate the pretense that often surrounds it! Really...it's fermented grape juice that is intended to make you feel warm and fuzzy. What really matters most to us is we match the style of wine you're looking for and you like it. We put ratings, tradition and brand recognition aside. We trust our own palate and select wines based on it's merit. My selection process is simple. 1. Is it delicious? 2. Is it unique? 3. Is it a good value? The list is categorized in style and it changes often. We hate to be bored and hope you enjoy drinking great valued wine as much as we do.

(MTCC) = M&T Customer's Choice Which means it was voted as a great value by our customers at our regular Tuesday Night Tastings.

Mmmm... Beeeer

Our Take on Beer - In our opinion good beer has character in the way that it looks, smells, tastes and how or where it is made. It can be more complex with flavors than wine and often pairs better with food. We have chosen to sell the beer we enjoy ourselves and not try to be everything to everyone. Our goal is not to raise our nose in the air at those who enjoy popular domestic brew or light beers. We just want to be a comfortable place for people to explore beer and have fun with it while eating some tasty vittles. The list is broken up to walk you through flavors to find exactly what you are looking for. It is progressive, the lighter flavors being on the top within each category. If you have any questions, just ask and we can help you find a match! Cheers!
